

Customer Name: Reliance Jio 4G

Project Name: National 4G Roll-out

Roll-out Challenge: Pan India roll-out of Reliance 4G under strict timelines

Results:

To help Reliance Jio 4G quickly roll out its services, JRDC's engineering department came up with a unique Rapid Deployment Tower (RDT) design customised to their needs. The tower design considerably reduced the time required for deployment and installation of towers across India.

Since Reliance Jio 4G was had very strict timelines to meet their aggressive roll-out, our product, Rapid Deployment Tower (RDT), proved to be a boon for the client. Easy and quick transportation and installation services by JRDC helped the client save crucial time, making way for the timely launch of Jio 4G services.

The launch was happened as per the schedule on September 5, 2016 on pan India basis. The quality of products and services were appreciated and acknowledged by the client.
